The work is a mixed media on canvas and the work was inspired by childhood memories. My work explores the emotions, thoughts and experiences we experienced growing up. I rendered my work with delicate but bold monochromatic shades of blue and I want my work to evoke emotions and memories of the viewer. The work conveys a calm and tranquil mood and drawing from her eyes she exhibit a sense of stability. And the flower represents hope, growth and bright red represents the strong love she possess. The work is part of the shades of blue series of which I am experimenting with a new style and technique of monochromatic color scheme.

The work is delivered with a certificate of authenticity and its a rolled canvas which will be ideally packaged in a robust box tube.
