

Ephemeral Dream

Call for Price

Ephemeral Dream belongs to Victor's 2023 collection, which explores the blurred boundary between imagination and reality. Each painting in this series depicts the coexistence of these elements, showcasing characters finding solace in shared experiences.

In Ephemeral Dream, Victor uses a limited monochromatic palette, emphasizing the emotional connection and dreamlike atmosphere. This focus on a single colour scheme draws the viewer's attention to the characters and their interactions, rather than being distracted by a multitude of colours.

The restricted palette creates a sanctuary that transcends the ordinary. This allows viewers to appreciate the characters' emotions and the symbolic weight of their shared space. The artwork evokes a sense of wonder where the tangible world coexists with the concept of time. Perhaps this hints at fleeting moments of connection or shared memories that transcend the ordinary.
