

Evanescence

Call for Price

Evanescence is part of Victor's 2023 series that explores the blurred line between imagination and reality. Each painting in the series depicts the coexistence of these elements, showcasing characters

finding solace in shared experiences.

Victor uses a strictly monochromatic palette in *Evanescence*, further emphasizing the emotional connection and dreamlike atmosphere. This focus on a single color scheme draws the viewer's attention to the characters and their interactions, rather than being distracted by a multitude of colours.

The limited palette creates a sanctuary that transcends the ordinary. This allows viewers to appreciate the characters' emotions and the symbolic weight of their shared space. The artwork evokes a sense of wonder where the tangible world coexists with the concept of time. Perhaps this hints at fleeting moments of connection or the impermanence of shared experiences, captured in a timeless space.
