

## Hand in Hand

R 5,250.00 ex. vat

'Hand in Hand' is an idyllic representation of childhood friendships. It ponders on the simple gesture of hand holding as a symbol of affection amongst friends, a natural act that we become too self-conscious of replicating in our adulthood. This photograph captures the unique bond that children have. Likewise, as the image depicts three children walking with their backs to the camera, it calls to mind homegoing at the end of a long day of play.
