Born from the lyrics, But a woman is a changeling, always shifting shape. Just when you think you have it figured out, something new begins to take of King by Florence + The Machine. A Changeling touches on the super majestic power of femininity and the constant social metamorphosis placed onto the female, just like the fairy left in place of a human. The assumption of roles that disengage from the life force. The spiritual intention of this piece is to cover and protect with love, blanket them with maternal energy and help release the inner life force.
