The artwork was inspired by the desire to achieve one's goals and having the ambition and zeal to attain those goals. I used bright red and yellow colors juxtaposed against my subject which exude and radiate their sense of energy and I rendered the work with spontaneous brush strokes to convey the mood of my subject and the monochromatic hues of blues provide my work with a subtle balance with the background and brings out the calm and stable state of mind of my subject matter. The work is created on stretched canvas and comes with a certificate of authenticity. It will be shipped in an ideal robust cupboards box to safeguard against damage.
