

Bonded life

R 5,500.00

Bonded Life(2024) is an ongoing project which will see the artist, together with the Association for the Visual Arts (AVA) Gallery, put the proceeds from the sale of this artwork into an investment fund. A 3 year old child, whose mother was a co-creator of this artwork, has been chosen as the sole beneficiary of the fund which may only be accessed on the occasion of the child's 18th birthday. AVA has pledged to donate their commission into the fund. The beneficiary may communicate directly with the financial institution administering the fund. The only instruction is that the beneficiary must request that the fund be transferred into a First National Bank account.

Frame	None
