

**IT COMES FROM ABOVE**

**R 60,000.00**

I used mineral pigment paint to create the first layering.

Then it is antracite grey, car paint, I used to cover up the back and add the lettering. Blending in tone on tone, and revealing the letters depending on the light.

The final figure popping up in blue, is made of strokes of blue car paint.

The figure is looking upward, praying in connection with the spiritual world.
