

## Artefact of Perception I

## **Call for Price**

Carbon Fibre Sculpture.

Carbon fibre is an embodiment of the great advances in material technology to which the last decades have been subject. Raw carbon fibre is combined with a plastic resin to form carbon-fiber-reinforced polymer composite. Once cured it is eleven times stronger than steel.

Edition Size	1
Medium	Carbon Fibre, 3D Printed ABS, Resin.
Height	25.00 cm
Width	31.00 cm
Artist	David Brits
Year	2017
